DOWN IN THE DEEP.

A Transatlantic Steamer Sunk In a Fog--Fifty Lives Lost--Heroic Conduct.

By Cable to the News.

LIVERPOOL, Nov., 26.—Reuter's Telegraph company have a dispatch which says: A collision occurred at 11.40 last night during a dense fog. The Pomerania sank thirty minutes after the accident occurred. A hundred and seventy persons were saved out of a total of two hundred and twenty on board. Fifty are believed to be lost, including Capt. Schwenzen, second officer Fokks, and third officer Yarrow. The Hamburg-American Line Steamship Pammerania, Captain Schwenzen, which sailed from New York Nov. 14th for Hamburg, arrived at Plymouth at midnight on the 24th inst., came into collision last night during a fog about 4 miles southwest of Folkestone with a vessel reported to be the Welsh bark Nachlian, of Carnaven in ballast. The Pomerania at the time was on her way from Plymouth to Hamburg. The steamship foundered in about ten minutes. 172 of the passengers and crew were saved by the iron screw steamer Glengarry, of Middleboro, and landed at Dover. The vessel with which the Pomerania collided is anchored off Folkestone with her bows stove, and forward compartment full of water, and a tug has gone to her assistance.

LONDON, Nov. 26.—Further particulars of the Pomerania disaster show that at the time of the collision, she was near Dungeness Point, about three miles from the shore. She was struck on the starboard side, midships, and sank in less than twenty minutes. Distress signals were given and responded to by the steamer Glengarry proceeding down the channel, which made all speed towards the scene of disaster. There were nine boats on the Pomerania, four of which were crushed in the collison. Five were gotten off, but one, being overcrowded with passengers, was sunk. All the boats pulled away from the doomed ship, leaving the Captain, who refused to quit his ship until the last moment. The last boat to leave was under the chief officer, who did all in his power to persuade the Captain to leave. After pulling for a half hour, the survivors were picked up by the Glengarry. One gentleman was taken from the water in an unconscious state and restored to consciousness. The Glengarry stayed near the scene until day-break, when the Pomerania was seen with her masts above water. No other bodies were recovered. The Glengarry then proceeded to Dover with those saved, and landed them, when they were taken to the Sailor's Home, treated with every kindness and breakfasted. The story told by the survivors tends to show that the greatest possible order, under the circumstances, was maintained by the officers and the male portion of the crew.

An account of the sinking by a passenger, says: "A few seconds after the collision the Steward and some of the crew came running to us and said a sailing barque had run into us, and we were all to go on deck. I went on deck directly, saw our ship's light, but the fog was so great I could see nothing else, but they told me the barque had ran away. The crew were then all busy lowering the boats. The ship was beginning to sink. In lowering the boats there was great confusion, everybody trying to crowd into them. One boat filled and sank immediately after it got into water. Two others were smashed by the collision. The boats were fastened up tight and we could not get them undone. The Pomerania was sinking rapidly. There were a number women among the passengers. I don't know how many, but eight have been saved and a baby. I think the baby's mother has been drowned. Our Captain had some fire works on board and let them off. We managed to get into the boats that remained and had been there about 10 minutes when the steamer Glengarry picked us up. She cruised about a long time. Our Captain had a chance to save his life, but would stick to his ship. I saw him when our boat got away from the steamer, standing on the bridge giving commands and trying to obtain order and save as many as he could. In twenty minutes after the collision the Pomerania went down. She did not heel over, but went down gradually. The London, Chatham & Dover Railway brought us free to London this afternoon. 119 of the Pomerania survivers, 65 being seamen and the others second and third class passengers. There were no first class passengers and no women among them. They were forwarded to Germany.

The National Grange, P. of H.

By Telegraph to the News.

RICHMOND, Nov. 23.—The National Grange, Patrons of Husbandry, which has been in session here nearly a week, has adjourned until Thursday, in order to give delegates an opportunity to accept the invitation of Churchland Grange, of Norfolk county to visit them. Nearly every member left on the steamer Wyanoke this afternoon, en route for Norfolk. In to-day's session Mr. Darden, of Mississippi, advocating a resolution setting forth more distinctly and directly the purposes and principles of the order, said the people of his State felt no ill will towards the people of the North. Had any ever existed it had been dispelled by the kind sympathies of that section towards the South during her recently plague-stricken condition. He wanted Northern people to remember during the coming political struggle that what politicians might say towards arraying one section against against the other was not a true reflection of the sentiments of the farmers of the South. Much business has been done by the National Grange looking to the general good of the order.

The Afghan War.

By Cable to the News.

LONDON, Nov. 26.—A special from Dakka, dated Monday morning, says: "Leaving fort Ali-Musjid in charge of a British regiment, Gen. Brown pushed on, the Headmen of the hill tribes coming out on the route to congratulate him and pay their respects, to Lundikana, thirteen miles off, where the advance force bivouacked. Major Cavanagh rode on to Dakka, which he reached at seven o'clock Saturday evening, the Khan of Lalpore meeting him to offer his submission. At dawn Sunday morning the British troops resumed their march, arriving at Dakka at noon, and finding that the deserted fort had been plundered by the neighboring tribes. The British advance has now reached the frontier of Afghanistan proper, destroying by its successes the Ameer's authority in the independent territory, thirty miles in width, from Jumrood to Dakka. The dying Afghan army, in its efforts to escape, has been plundered of everything, the country having risen against it, refusing it shelter. The news is confirmed that Jelalabad has been evacuated and the garrison is a head-long flight towards Cabul. Mahomed Shah Khan, Chief of Lalpoor, and head of the Mahmouds, and hitherto the Ameer's ally, has placed himself in Major Cavanagh's hands."

The Latest from the Capitol.

By Telegraph to the News.

WASHINGTON, D. C., Nov. 26.—Capt. Brown, commanding the U. S. S. Alaska, reports the arrial of that vessel at Panama on the 11th.

Revenue Agent Chapman telegraphs to Commissioner Raum, that in a raid through Polk and Rutherford counties, North Carolina, he found 26 illicit distilleries. 9 only were or have been recently in operation. He arrested two distillers, seized five stills and fixtures and a large quantity of illicit material.

The Joint-Committee of both Houses of Congress, investigating the question of the transfer of the Indian Bureau to the War Department, met to-day. No business of public character was transacted. The committee adjourned until to-morrow.

A Physician Foully Murdered.

By Telegraph to the News.

CINCINNATTI, Nov. 26.—A special dispatch says news has just been received of a foul murder on Saturday at Augusta, Hancock county, Ill. Dr. Daniel Pierson, a physician of high standing, was called on Saturday night by an unknown man, who said he had been sent to call the doctor to attend Mrs. Goodwin, about 3 miles distant, who was ill. The Doctor saddled his horse and started. About an hour later he was found on the road side, horribly mangled, his skull broken by an iron bar, which was lying near him. Dr. Pierson was a member of the Board of Town Trustees, and was very active in suppressing lawlessness. It is thought some one who had received punishment at the doctor's instigation, committed the murder.

The Arlington Estate Suit.

By Telegraph to the News.

ALEXANDRIA, VA., Nov. 26.—The Arlington case, which was appointed to commence here to-day, the parties not being present, goes over by regular continuance to the regular January term. It will be tried here about the 21st of January. Judge Hughes expects to be able to procure the attendance of Judge Bond with him then.

Liverpool Ferry Boat Collision.

By Cable to the News.

LIVERPOOL, Nov. 26.—During a dense fog to-day a crowded ferry boat crossing the Mersey, collided with a ship lying at anchor. A panic occurred ons the ferry boat, and seventeen persons jumped overboard. Some accounts say six persons were drowned, others only two.

WELDON, N. C., Nov. 25, 1878.

Correspondence of the News.

I send you a copy of the Resolutions passed in regard to the death of W. W. Brickell, at a meeting of the Roanoke and Tar River Agricultural Society on the 29th October, 1878:

WHEREAS, It has pleased God in his Providence to remove from the scenes of his usefulness W. W. Brickell, a member and Officer of the Society.

Resolved, That in his death the Society has lost one of its most zealous and efficient workers.

Resolved, That the Agricultural interest of this section has lost one of its most progressive farmers.

Resolved, That his death is a calamity to the people of Eastern North Carolina.

Resolved, That these resolutions be spread upon the minutes of the Society, and a copy be sent to the family of the deceased, and that the Roanoke News, Raleigh Observer and the Raleigh Daily NEWS, be requested to publish.

A Feeble Movement.

The Greenback leaders will meet at Washington on the 30th inst., to make a programme for the action of their Congressmen this winter. It is painful to observe how utterly Doctor De la Matyr, who has been so recently brought into prominence, has superseded Blanton Duncan as a Greenback leader. Blanton's chances for the Presidency visibly diminish.

What we may Expect.

Washington Post.

Three Southern women were discharged from the Treasury department last week, to be followed, it is said, by all that remain. This is a feature of the "new policy," and is declared by those who know to have been brought to the attention of Mr. Hayes before its adoption. A great and powerful Administration, this.

How the Moonshiners are Warned.

Charlotte Observer.

One of the numerous incidents which served to give life to the recent campaign occured in the lower edge of McDowell, near the Rutherford line. As the party passed a house on their way a woman appeared at the door and began a most vigorous blowing of a dinner horn. The squad rode rapidly forward toward a ravine which was in view, one or two members of it holding back for the purpose of inducing the woman to desist. She continued her blowing, however, until the crowd in advance reached the ravine, and there they found a distillery under the hill. The distillery was in full blast but the "man at the wheel" had heard the warning notes of the dinner horn and had abandoned his property and saved his distance.

DUPLIN COUNTY.

Superior Court Session---Colored Capital Cases--Two Negroes Acquitted.

Correspondence of the News.

KENANSVILLE, N. C., Nov. 25th.

Court adjourned yesterday morning. The civil docket was not even called over, the criminal docket occupying the whole week. There were two capital cases tried, both colored men and both acquitted. This is creditable to old Democratic Duplin, and shows conclusively that colored people can get justice in Duplin. Both juries were composed of our most intelligent gentlemen and all white men. The first tried was Lewis Taylor, colored, for the murder of Calvin Etheridge, a white man. This case was removed from Wayne county. The trial commenced on Wednesday morning, and was not concluded until Friday morning. It was prosecuted on the part of the State by Capt. Swift Galloway, the Solicitor of the District, assisted by John F. Wooten, Esq, of Kinston. The defence was conducted by Hon. W. T. Dortch and A. K. Smedes, Esq., of Goldsboro. The defendant was acquitted.

The second capital case was taken up immediately after the conclusion of the former, and was the case of Levi Parker, colored, for the murder of Ellick McCullough, colored. The Solicitor, Capt. Galloway, was assisted in the prosecution of this case by J. D. Stanford, Esq, of Duplin. The defence was conducted by Col. W. A. Allen & Son, and J. N. Stallings, Esq., of Duplin, and Col. W. S. Devane, of Wilmington. This case was not concluded until Sunday morning, and the result was the acquittal of the defendant. The Court worked all day and until about 1 o'clock at night during the whole time that it was engaged in these trials.

Amnesty to Carolina Whiskey Distillers.

Charlotte Observer.

In an interview with Col. Chapman, special Revenue agent for the Western District of North Carolina, he states that he has just returned from his first tour of observation of a part of his territory since the offers of amnesty have been made to the illicit distillers. He has thoroughly policed the counties of Rutherford and Polk, with parts of McDowell, accompanied by a force of special deputies. He found 9 illicit stills in operation, of which he captured 5. Referring to the effect produced upon the people of the sections which he had visited by the recent proclamation of amnesty, he said he was satisfied it had been good; it was manifest in more ways than one; while some of the moonshiners might persist in their illicit operations, there was less disposition among them to openly resist the enforcement of the laws. This might be largely due to the appeal which had been made to their better natures, but it was doubtless largely due to the understanding that if those who had been once amnestied were found offending in future, they would be vigorously dealt with. There was a manifest improvement, too, in the general feeling of the people at large toward the revenue laws and those charged with the enforcement of these. Hitherto it might have been supposed that the whole people of the moonshine districts were in thorough sympathy with the blockaders, if all were not themselves blockaders; but the amnesty has worked a perceptible change in this sentiment and there are those now who frown on the moonshiners who had heretofore winked at them. There has been a marked diminution in the amount of distilling recently.

Go West, Young Man.

The Burlington Hawkeye is doing its best to encourage young men to go West and grow up with the country. This is the advice it gives them: "Yes, son, yes, yes; go out West and buy a farm. There is no life so independent as that of the honest farmer. Do not be discouraged if the work is a little hard at first. The grasshoppers will eat up all your first planting, but they will devour it so early in the season that you can plant it a second time. They won't eat that planting until just about three days before the harvest. Then you will have nothing to do all the fall and winter, and you can put in your full time starving. The next years crop will be destroyed by constant rains and floods. The third year a drought will burn up everything that has a root or a leaf within ten miles of your farm. The fourth year, however, will go well. You will a raise a blooming crop, get it all in and safely housed and sit down happy and contented, waiting for the market to rise. Then a prairie fire, as big as the buttend of the universe, will come along and burn up everything you have in the world except the clothes you have on. Buy a farm! A young man is neglectful of his best interest and most solemn duties who does not buy a farm right away."

A Change Talked of.

Wilmington Sun.

From authority which we can call pretty good, we learn that the managers of the Raleigh and Augusta Air Line are considering the feasibility of tering up the end of their track at Hamlet and removing it to Wadesboro, as the people of Anson have more than once signified their willingness to furnish their share of the necessary help. Influential men in the Wadesboro section are taking an interest in the matter, and, we learn, will make such a favorable proposition that the road can find no excuse for not accepting. The only thing that causes us the least doubt is simply this: if the Raleigh and Augusta Air Line should transfer its connection from Hamlet to Wadesboro, or any other point on the C. C. Railroad, what better off will it be in the light of the present trouble?

The Modification of the Silver Law Probable.

Washington Post.

The committe expect to have several of the appropriation bills ready to report to the House during the first week of the session, and after that they will bring them in as fast as the House can dispose of them. The indications are that the appropriations will go through smoothly and swiftly, and thus give Congress time to act upon other important measures. For the first time since the Radical party came into power, the estimates of the departments are within reasonable figures. The Administration with the fear of an extra session before its eyes—directed all estimates of the fiscal year to be based upon the appropriations passed last winter. This will relieve the Democratic House of a great deal of labor and gives promise of quick legislation; but the Republican Senate, with its characteristic extravagance may load down the bills with useless and costly amendments, and thus bring about a contest between the two houses. There are three bills on the calendar which the banking and currency committee intend to press if an opportunity is offered. The first and most important of the three is the silver certificate bill, providing that silver bullion or coin may be deposited with the Government, and that the depositor may receive a certificate which shall have all the functions that the law gives to gold certificates. The silver men in Congress contend that this bill is necessary in order to put silver upon an equality with gold under the law instead of increasing the functions and they intend to press it vigorously. It is pretty well understood that Mr. Hayes will in his forthcoming message, recommend some modification of the silver law instead of increasing the functions of that coin. He will either advise an increase in the amount of silver to the dollar or a limitation of the coinage, but it is very evident that no change will be made in that direction.

KING COTTON'S PALACE.

An Interesting Novelty in Cotton Stowing in New Orleans.

New Orleans Democrat.

A site has been selected with about one-half mile of the river front, on which will be erected cotton warehouses sufficient to handle 2,000,000 bales of cotton each season. These warehouses will be in ten divisions, and will be built with brick walls and iron roofs; no wood whatever. Each division will be divided into sections, and each section will be furnished with storage cribs, made of wrought gas pipe, perforated with small holes, and so arranged that every bale of cotton rests on the pipe, and not upon any other bale. Every bale will be exposed to view for selection, and any one bale can be taken out without moving any other one in the tier. More cotton can be stowed by this plan on the same area of ground than is now done. The perforated gas pipe crib tiers are so connected that a current of heated air can at any moment be thrown around every bale of cotton in the press and dry it if received wet, and keep it perfectly dry in wet weather; and in case of fire a shower of water can be at once thrown upon all sides of every bale of cotton in the press and immediately be followed by a shower of heated air until it is dry again. The air will be heated by the escape steam of the presses, and thrown in by fan-blowers, and the water supplied from elevated cisterns. The yards will all be covered with glass roofs, so that cotton can be classed and weighed in all weather. The entire levee, from the warehouses to the front of the warves, will be covered with an iron roof, so that receiving and shipping cotton can go on as well in wet as in dry weather. The flooring of the whole will be of granite blocks, faced perfectly level. There will be eight presses, each capable of turning out 2,000 bales of compressed cotton every twenty-four hours, or 16,000 bales altogether. The loss to the distant spinner from damage by stain resulting from wet bagging and mud, to which bales are now exposed, will be entirely saved when the cotton is handled in a dry, clean house, under cover, and always kept dry in the warehouse until put on board ship. This loss to the spinners is now fully 20 pounds per bale, and after the first crop is sent forward in this improved condition New Orleans cotton will command at least $1 per bale more in distant markets than cotton from other ports.

Too Mean to Live.

The Christian Advocate thought years ago it had found the meanest man. It was a Connecticut deacon who went to a store where they do a dicker trade, and exchanged an egg for a darning needle. He then called for the customary treat and said he would take egg-nog. The store keeper used the egg he had just taken. It proved to have a double yolk, and in view of that established fact, the deacon, as he smacked his lips after drinking, demanded another darning needle! But the Advocate has heard of a meaner man yet, a minister in Western Massachusetts, who, when his father became old and infirm, "threw him on the town." When the pauper died the son made the request to conduct the funeral services, for which he subsequently asked to be paid the usual fee, and actually received it! He can't be beat.

Russia Turns the Tables Upon England.

N. Y. World.

If the Berlin press is right in its speculations, Russia is preparing to deal with England in her Afghan difficulty very much as England dealt with Russia in her Turkish difficulty. Seeing that Russia if let alone would pretty certainly bring the Sultan to his knees, England waited till this had been done and then put a pressure upon Russia not wholly in behalf of the defeated power, which nullified the treaty of San Stefano and led to the Congress of Berlin. Seeing that England if let alone will pretty certainly bring the Ameer to his knees, Russia proposes to wait until this has been done and then put a pressure upon England, not perhaps wholly in behalf of the defeated power, which may have the effect of seriously modifying the results of the war as they are now forecast in the British official mind. Perhaps, too such a pressure exerted at such a moment muy have the effect of seriously modifying sundry other views plans and purposes now entertained by the Government of her Britannic Majesty.

A Monster Cannon.

Herr Krupp has lately completed a 40-centimetre or 16 inch gun. The most powerful place of ordnance which had previously been constructed in the factory at Essen, or indeed in any other Continental workshop, was the 35.5-centimetre Krupp gun. The 40 centimetre gun is a far more formidable weapon. While the total weight of the 35.5 centimetre piece is about 50 English tons, that of the 40 centimetre gun is nearly 70 tons—the length of the former piece being 29 feet and of the latter 33 feet. The heaviest projectile launched by the 35.5 centimetre gun—the steel or hardened iron shell, namely, used for firing against armor—weighs 1,155 pounds, while the steel projectile discharged from the 40 centimetre guns weighs 1,606 pounds; the charge used with the former consisting of 253 pounds, with the latter of 352 pounds of prismatic powder.

"REDUCE THEIR BURDENS."

What a Western Member has to Say About it.

Correspondence of the News.

ASHEVILLE, N. C., Nov. 22, 1878.

The position the NEWS takes in favor of fetrenchment in State and county expenses meets with universal approbation here. I was never more convinced of anything than that in most all the offices in the State we are paying too much and it is the duty of the Legislature to correct these and all other evils that exist in our government. I think many thousands may be saved in this way and added to the school fund so as to make that branch of our Government much more effective. We can hope for but little development of our resources and our institutions of free Government until our masses are educated, and as an humble member of the Legislature I will feel authorized in doing serious violence to many "places" and projects now in our system, in order to increase the facilities for educating the poor people of the State. As a party we are committed to this line of policy and I think the time now present when we should come square up to the "scratch" and make one honest fight in behalf of those interests that our judgment clearly points out should be fostered.

Let me remind you of the cry made by our party six or eight years ago against high salaries and fees, and in behalf of the interests of a broken down and broken up people, how the prices paid were compared with those paid before the war, etc., etc. Now think of the great reduction in the prices of everything on which we subsist and see if we have not a small mote in our eyes. Let us get it out, at all hazards, and be just to the people before we are so generous to a few office holders.

Very truly,
NATT ATKINSON.

Elopement of a Protestant Nun.

Cardiff Times.

A street in Cardiff, Wales, is named North Carolina street, and much scandal has been caused thereon by the elopement of what may best be termed a Protestant nun. The minister of the Established church, a ritualist, introduced into the parish several "Sisters of Mercy," who lead a kind of conventional life under the direction of a "Lady Superior" or elder Sister. Almost identical in costume, they were scarcely to be distinguished from the Roman Catholic "Sisters of Nazareth," and became known as the "Nuns of St. Mary." To them in the celebration of the holy communion the "sacred water" was given, while the "compressed bread" was given to the other members of the church. They assumed the coif of the "Sisters of Nazareth," wore on their breasts large crosses, and they thus became surrounded with all the ideas of celibacy attaching to those who have taken the vail. Among the nuns of St. Mary was a lady of middle age, possessed of personal property, which, however, it is said she spent freely in the service of the Church, and in acts of charity. As one of the teachers of the Sunday school she was sometimes brought in contact with a young man with a decidedly Welsh patronymic, who was employed as an engine cleaner. He was nineteen years of age, and remarkably innocent in his manners. Notwithstanding the astuteness with which the Lady Superior managed the nunnery, some stolen interviews were, it is understood, obtained, and the week before last the lady was missed, and, singularly enough, the young man was also absent from his home. She threw aside the coif, cross and cloak, and placing on her head a wreath of orange blossoms, she became Mrs. —— at one of the small churches just outside of London. After spending a few days in London the parties returned to Cardiff, and eventually took a house there, furnished it, and settled down quietly to the ordinary routine of domestic life. The lady, it is said, has an income of £3 a week, and the husband feels the improvement of his position by the change. It is noteworthy that the public feeling fully justifies the lady in practically showing her determination "not to be a nun."

Powers and Privileges of Governors.

A Governor's discretion in cases of requisition has just been affirmed by the Ohio Supreme court in the case of State of North Carolina against Carrington. Carrington was demanded in 1876 of Mr. Hayes, then Governor of Ohio, and was actually delivered by him to the agent of North Carolina. Gov. Young soon after succeeding Gov. Hayes, revoked the warrant for the rendition, on the ground that "it was unadvisedly issued." A writ of habeas corpus was issued from Hamilton county requiring the State of North Carolina's agent to produce Carrington before the court there. The agent appeared, and moved to quash the writ, but was over-ruled. He then petitioned by a writ of error and asked the Supreme court to reverse the judgement of the lower court. The decision of the Supreme Court refuses this petition. The central point raised was as to the discretion of the Governor, the same that was raised here by Attorney General Youmans for the State of South Carolina in the Kimpton case, and the Ohio court says, agreeing with Atorney General Train: "It is a mistake to say that in determing whether a case contemplated in the provision is presented, the governor upon whom the nemand is made is vested with no discretion."

The Chief Producer of Yellow Fever.

Philadelphia Times.

In the accounts of yellow fever are various allusions to accompanying phenomena observed in animal life. Certain analogies between the yellow fever and the Texas or Spanish cattle fever have been pointed out, but as yet the test mentioned has not only not been found, but it has not been methodically sought. It appears, however, that this is the first and most important step in the investigation. If current theories about yellow fever are correct, the yellow fever poison may be developed by adding some one or more of the excretions or fluids of a person affected with yellow fever to decomposing organic matter, under well-known conditions of temperature and moisture. We have then to carry out a process of elimination to find out what constituents of the decaying filth are essential to the production of the poison, and at the same time to seek chemical or miscropical means of recognizing the presence of either the cause of the poison or the poison itself, in order to get rid, if possible, of the necessity of resorting to the physiological test of inoculation to prove its presence. In this brief sketch of what would be considered a satisfactory demonstration of the cause of yellow fever, but one provisional hypotheses, the prevailing and popular one, has been considered. Several others must be considered and tested, but in each and all the greatest and first desideratum is an easily applied test of the presence of the poison. It needs but a moment's reflection to see that the period when an epidemic is raging is not the time to carry out such researches. Probably the best place to carry on such an investigation would be at first the city of Havana. It must be clear that such an investigation will require much time and labor, and that its results should be presented accompanied by clear and convincing evidence.

It is said that several influential gentlemen have approached some of the largest depositors in the City of Glasgow Bank with a view to arranging for a relinquishment by them of a portion of their claims. Some of them are understood to be willing to take 15s. in the pound, provided that a general agreement to do so can be arrived at.

Last June a coal dealer of respectability and prominence, W. S Cambell, doing business in New Orleans, invested ten dollars in the purchase from M. A. Dauphin (P. O. Box 692, New Orleans, La.,) of a ticket in the Extraordinary Semi-annual Drawing of the Louisana State Lottery, and drew $100,000. The next drawing takes place on December 10th, and the scheme presented by the Company is so attractive that it is not unlikely some one of our readers will win the grand prize, after he resolves that he who ventures nothing wins nothing, and believing that Generals G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia, are honest men, and that the distribution under their sole care is an honest one.

Complete in all Respects.

The immense store of W. H. Dodd, corner of Martin and Wilmington streets, continues to attract customers, both by reason of the great stock of goods it contains, as well as the low rates at which these are offered. *

DAILY NEWS.

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

WEDNESDAY.....NOVEMBER, 27 1878

AN American named Harlan is said to be in command of Shere Ali's army, but an anxious public is left completely in the dark as to who Harlan is, and where he won his grade of General.

THE Governor of Wisconsin must order a new election, because some patriot failed to have his vote recorded at the recent election. In one of the representative districts the result was a tie. This shows the importance of a single vote.

THE Legislature will assemble Wednesday, January the 8th. The election of U. S. Senator will take place on the second Tuesday after their organization making it the 22nd January and not the 15th January as some of our exchanges have it.

BESIDES electing a United States Senator the incoming Legislature have to elect nearly one thousand magistrates for the term of six years. There are in the State 850 townships with 2,816 magistrates andof thesethe terms of over 900 expire this winter. The very best men should be selected for these vacancies.

WHILE the bankruptcy law was in force there were no less than 103,005 bankruptcies in the United States; that is, one in every nine firms doing business in this country have failed in the past ten years. Massachusetts counts the most bankruptcies to the population, Virginia second, and California third, while Maryland is lowest on the list.

ONE of the peculiarities of the Grenada epidemic has just been told before the Richmond Health Convention. During the entire epidemic at Grenada, which lasted months and carried off hundreds of people, there was only one person who died of any other disease than yellow fever. Yellow Jack proved a jealous monarch and claimed all as his own.

THE solid South is not very grasping in the direction of officers. Take, for example, the army. There are now, says the Washington Post, in the pay of the United States 2,470 military gentlemen of commissioned rank. Of these, 2,273 are put down on the list as appointed from Northern States, and 197 from the South. The number of general officers is 11, of whom 11 are from the North and 0 from the South. The adjutant-general's office employs 17, of whom 16 are Northern men and 1 from the South. In the medical department the proportion is more equitable than in any other, there being 157 Northern surgeons to 25 Southerners. In the cavalry there are 384 Northern officers to 50 Southern; in the artillery 239 to 23, and in the infantry 831 to 55. Of the 197 officers classed as belonging to Southern States only 5 are above the rank of captain, while 167 are below that grade. It therefore appears that the regular army is a thoroughly sectional institution.

IN these times of dullness in American affairs, eyes naturally turn to the status of affairs in the East, now, as for months agone, the scene of a struggle. Through all the comparatively trivial warfare now being waged on the Afghan border, the hand of the northern bear shows itself, and daily the effect of long prosecuted and carefully planned Russian machinations grows more apperent. Though seemingly a silent and passive spectator, yet her forces seem ever antagonistic to English interests. The news now comes that she will pour nearly two hundred thousand men into Bulgaria ere the year closes. Russia has also dispatched troops to Central Asia, where there is an outbreak of the Chinese population. On each side the forces of the Czar hover about the Queen's Indian possessions. Although the story of the presentation of the sword to the Ameer by Russia is probably a canard, yet more truth lies in the statement that officers of the Czar's army have or will have much to do with the care of the Ameer's forces. Russia's antagonism to England is not a thing of of a day, and though for years apparently dormant it never loses nor has ever lost an opportunity to work its will against her. Though subdued in the war in the Crimean peninsula, her submission was but sullen, and when, a few years later, English troops stormed the Chinese forts on the Pei-Ho, they found Russian engineer and artillery officers exercising a sort of a superintendence over the military works of the Chinese.

SOME days ago the wires flashed the report that in an interview President Hayes had signified his intention to take vigorous action upon what he termed the "Southern Question," going on to say that he was deeply grieved at what he was pleased to call unfairness towards the negro voters. A day or so later came the news that the reported interview was a baseless fabrication, and that Hayes had given utterance to no such sentiments. But, in an outline of the President's policy as shadowed in his message to the next assembled Congress, he is said to be about to make statements almost identical in character. The lying reports of sensational correspondents, whose verity is so slight as not to cast a shadow upon a fact, have been believed.

It is now said that the recent change of Mr. Hayes' Southern pplicy is the result of a well-defined and easily traceable attempt on the part of the Radical Republican leaders. These, it is understood, made no attempt to carry any Southern State. On the contrary, they calculated that if the South remained solid, they could more easily influence the *de facto* President and have less trouble in convincing northern voters that the people of the South are permanently joined to their idols. The views of Mr. Hayes, seem to show that he has been largely influenced by the tactics of those against whom some Southern papers have so often defended him. He may be said to have made a new departure so far as his attitude toward the South is concerned, and this new departure is vividly suggestive of the prescription that the stalwarts have practiced since the war. But all the leanings are toward one of the question. A sudden change has come over the spirit of the Administration's dreams, and the vision of a "solid South" has led the Administration at Washington and the Republican party generally into performing some highly ridiculous antics of late. The notion of a solid South has affrighted the Republican party ever since it came into being, and will probably continue to affright it to the hour of its death. It would be strange indeed if the South, black as well as white, were not "solid" against the party which since 1865 has been in control of the White House, and which has done evil, and that continually, to all races at the South. It was the Republican party which pinned with bayonets the carpet-bag governments on the South to the destruction of its people, whites and blacks alike. These governments squandered the harn-earned money of the people and piled up the mountains of debt in every Southern State which are now so oppressing their industry. No good thing to the South since the war ended has issued out of Republicanism or Grantism. But of one thing the Radical manipulators and the horde of hungry, followers that act as hyenas, seeking but another opportunity to, like ghouls, dig up the buried animosities and wage warfare upon the South by means of which they might obtain place or pickings, may be sure, and that is that neither from this nor from the next Congress will they get power to interfere in a State election either in Massachusetts or in the South. If there be a condition of civilization or of partisanship which instigates or tolerates election acts at the South which are not instigated or tolerated at the North, then let the South be condemned accordingly. But General Butler ought to be examined as to whether there is any more immorality in elections here than in Massachusstts and New York.

The Grand Central is now offering unusual inducements to business men, families and tourists. The prices have never been so low, and the table is still kedt up to its first-class high standard.

VEGETINE

WILL CURE CANCER!

PROOF! PROOF!! PROOF!!!

H. R. STEVENS, ESQ:—

Dear Sir,—About two years ago, a Cancer made its appearance on my face, left side of my nose. When I first noticed it, 'twas about the size of a pinhead (very small). It increased in size, and spread on my face until it became as large as a common cent. I tried all kinds of remedies, and advice from a physician. It was spreading, and eating into my flesh very fast. I was very much alarmed. I went to see a paysician who cured Cancers: he did not give me much encouragement. It pained me very much; I suffered night and day. It would bleed at times very profusely. Everything was done that could be to try to cure the cancer. My brother had a cancer on his lip; he submitted to an operation, being well discouraged I was one day in Mr. Woodberry's apothecary store, of this town. He gave me your pamphlet, containing many cures by the use of Vegetine. I found on page 19 where Vegetine had cured a cancer on a lady's nose. I then bought a bottle of your Vegetine and it proved a great blessing to me; I could see good effects from it right away. After taking three bottles, it stopped the spreading of the cancer about the edges; it checked the eating into my flesh. I could see it was gradually healing. I kept on taking Vegetine, the cancer slowly disappearing, until I had taken sixteen bottles and it completely cured it. It has left a large scar on one side of my nose; and I feel it my duty to recommend Vegetine to all like sufferers, as it is certainly a great 'Blood Purifier.' I am now sixty-three years of age, and Vegetine has greatly improved my general health.

Yours most respectfully,

WM. P. CLEAVES,

34 Federal St., Beverly, Mass.

We, whose names are annexed, can testify to the above, as Mr. Cleaves is an old resident of this town.

VEGETINE—For eradicating all impurities of the blood from the system, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

Vegetine

CURED AFTER 20 YEARS SUFFERING.

READVILLE, MASS., Feb. 18, 1872.

H. R. STEVENS, ESQ:—

Dear Sir,—it gives me great pleasure to give in my testimony to the good effect the Vegetine has had on me. I have been troubled for twenty years with an eating Ulcer on my shin-bone. During that time I have tried many remedies, but have not had it cured till now, some three months ago it was very bad, so that the flesh was eaten into the bone, from a place as large as the palm of yous hand. I was recommeud d by Mr. Tilton to try your Vegetine, and I did so. In taking the first bottle, it commenced to heal; and I have only five bottles, and it is all healed nicely and I would cheerfully recommend it to all alike afflicted.

Respectfully yours,

WILSON SEARS,

Vegetine thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

Vegetine

A VALUABLE MEDICINE.

CINCINNATI, 1877.

H. R. STEVENS, ESQ:—

Dear Sir.—I have used your Vegetine in my family, and know it to be, and can recommend it as a good purifier and cleanser of the blood. I have used several bottles; it is a valuable medicine.

Respectfully,

D. B. STESBITT, Grocer,

N. E. Cor. Main and Franklin Sts.

Thousands will bear testimony (and do it voluntarily), that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities, or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

DAILY NEWS

WEDNESDAY.....NOVEMBER, 27 1878

On the Search for New Motors.

Springfield Republican.

Edison is not the least troubled by the report that he has been denied a patent for his electric light, on the ground that it is an old principle discovered by J. W. Starr at Cincinnati in 1845. He declares that his claim is distinct from any other ever made; that an expert has been searching Astor library for a fortnight without finding any patent or claim resembling his invention, and that he is positive that some of the eight different patents he has applied for will be granted. Edison is on the scent for further use for his electric machines, and believes that, with the same apparatus and telegraph circuit, he can not only transmit electricity for lighting houses, but also employ it to heat them, to cook by and to furnish power that will run sewing and other machines. Another force which is expected to supercede steam in furnishing is the magnet, and W. W. Gary is now perfecting a machine in the most antique part of Boston's West-end, which he is as certain will be a success in revolutionizing applied mechanics, as Harriet Hosmer is that her similar invention will do the same. Gary has been experimenting for 10 years, but has only been successful within two, and now, having secured himself by patent on both sides of the Atlantic, he proposes to bring his machine to public notice. This arranges a stationary and revolving magnet so that the delicate balancing of a piece of soft iron keeps up a continual motion, the power being increased by adding more magnets. Gary has only got as far as to run a sewing-machine yet, but he is sure that engines for the heaviest work will eventually be driven by his invention, and that it will be universally in use.

The Vileness of the Times.

Rev. Joseph Cook, of Boston.

There are several things that injure a man more than to cut his throat. An honorable daughter dead is mourned less than a daughter dishonored. I know a school of superb culture, a temple of sanctity, where 300 young women are gathered under the very best religious influences and the loftiest educational incitements. I have wandered up and down the halls of the palatial building in which their instruction is given; I have admired the works of art there; and had occasion to study minutely the enthusiasm for art and social improvement and religious usefulness which fill that school, and vivify its lofty regard for intellectual culture. But this institution publishes no catalogue. Why? Go to the New York Society for the Suppression of Vice, to the Boston society, or to the committees which have been organized to suppress vice at Providence and New Haven and Cincinnati and St. Louis and Chicago, and you will find that catalogues are made the lattice work through which moral lepers and assassins, secretly, at night, under the cover of the mails, throw their poison into seminaries of all grades. It is a terrific sign of the times when shrewd men of affairs, conducting a great school, dare not publish a catalogue. I show you the caution in actual exercise. Within twenty miles of Boston the resplendent school I have described stands in its stately park.

The Latest as to the Grave Robbery.

Brooklyn Eagle.

The body of A. T. Stewart has not been found, and not a fact regarding it has been elicited. Conjectures are plentiful, but the police deny that they have any knowledge beyond the fact that the body is gone, and that they have strong convictions for thinking that the body was carried over the North River. Arrests have been made from time to time, but no evidence implicating any one has been obtained. The resurrectionist, Christian, is being sought for, as it is believed he and the missing Dr. Douglass are implicated in the matter. The latter is known as a pretended doctor, an abortionist and a body-snatcher. He was implicated in the Beau Hickman resurrection in Washington. The Pinkerton agency are investigating this clew. The police authorities declare that the publications of the various papers have done all possible harm to their efforts.

Are They In Earnest?

New York World.

The meeting held by the Mormon women of Salt Lake City in the theatre on the afternoon of Saturday, the 16th instant, was both large and enthusiastic, though it was called to assert the divine right of a husband to have as many wives as he can support. The ladies who spoke bore names familiar in the annals of Mormonism, and most of them boasted of their long connection with the faith and their happy experience in married life. In a series of resolutions the meeting determined to memorialize Congress, asserting the purity of the patriarchal order of marriage, and asking the passage of a constitutional amendment insuring to all the right of enjoying the blessing. So many people are asking for the sixteenth amendment for so many different objects that there is not the slightest danger of its passage.

Currency Value of Silver.

Washington Post.

The weight and legal status of the various silver coins now in general circulation are not so well understood as would be desirable in order to avoid misunderstanding in ordinary business transactions. The subsidary coins, halves, quarters and dimes, weigh 385 8-10 grains to the dollar, and are legal tender to the amount of five dollars only; the new standard dollar weighs 412½ grains, and is legal tender for any amount; the trade dollar weighs 420 grains, and is not legal tender for any sum at all. The intrinsic value of the best of these is about 15 cents less than gold at present rates.

A Bond of Small Denomination.

Secretary Sherman, in his coming annual report, will renew his recommendation of last year that a new bond of small denomination, bearing less than 4 per cent. interest, be authorized, in order to enable persons of small means to accumulate sufficient sums to buy 4 per cent. bonds. The Secretary has determined to recommend a $10 bond, bearing 3.65 per cent. interest. He did not fix upon any rate of interest in his last report.

Here's Your Outrage.

Washington Post.

The editor of a Republican paper in Michigan opposed the candidate of is party for county clerk, for which he was set upon by his late associates on the streets of Corunna and tarred and feathered. What does the Attorney-General of the United States, Mr. Rutherford B. Hayes and the outrage organs generally propose to do about that?

A CERTAIN AND SPEEDY

CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

TRADE MARK TRADE MARK

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter prayed of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. AS A TONIC AND BLOOD PURIFIER IT HAS NO EQUAL, doping that you may be spared for many years of usefulness, I remain,

Very respectfully,
L. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL Co., N. C.

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,

Respectfully your friend,
MRS. H. T. BROWN.

Sept. 26, 1878,

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since except a out two months ago, the medicine gave out, and I was without several days, it then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had th medicine good enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the liver an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 20 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D., Warren, Co.; Hons. J. J. Davis and C. M. Cooke Franklin Co.

LOCAL BRIEFS.

——Despite the dullness of the day, a very large amount of cotton came in yesterday.

——To-morrow the State Board of Canvassers will meet at Commons Hall to compare the votes for Congressmen.

——A drummer's license was yesterday issued to P. Whitlock, Richmond. This city is now falling behind in the number of licenses to firms, while Baltimore is going far ahead.

——Yesterday was as gloomy a day as the year has shown. The clouds looked as if they would fall on the city, and the streets looked as cheerless as could well be imagined. Never was there a greater contrast between two days than between Monday and yesterday. One was like spring's very self, while the other was as bleak and forbidding as winter could furnish.

Allen & Cram.

Particular attention is directed to the advertisement of this reliable firm, who manufacture all kinds of castings, besides doing first-class machine work. Their engines are superior. The work of this establishment has won a decided reputation.

Military Gossip.

Capt. Thos. P Devereux, of this city, having resigned the position of Assistant Commissary on the staff of Maj. H. G. Flanner, of the First Artillery Battalion of the North Carolina State Guard, Charles M. Harriss, of Wilmington has been promoted to the vacant position, with the rank of Captain.

Abstract of Taxables.

The State Auditor yesterday received from W. A. McClure, the Register of Deeds of Rutherford county, the following abstract of listed taxables:

General taxes	$1,748.40
Special "	1,787.96
School "	2 978.05
County "	7,337.96

The First to Settle.

Sheriff B. F. Logan, of Cleaveland county is the first officer to settle up the taxes of his county in full with the State Treasurer. Calling on that officers yesterday he settled in full, paying in the following taxes for 1878:

Public Taxes	2,424.88
Special "	2,102.93
Total	4,527.81

Personals.

E. B. Borden, Esq., of Goldsboro, is in the city.

Hon. Jesse J. Yeates, M. C. from the First District, arrived in the city last evening and is at the Yarbrough.

Hon. Geo. W. Brooks, of Elizabeth City, is registered at the Yarbrough, and will open the U. S. Circuit Court this morning.

Miss Annie W. Barnes, Editor of the Acanthus, a magazine published in Atlanta, Ga., is at the Yarbrough.

Matters Matrimonial.

The local matrimonial fever appears to be again raging, as no less than four marriage licenses were yesterday issued from the office of the Register of Deeds. It was thought that the disease had about expended itself, but there are always a few more left. The number of the solitary birds is growing beautifully less, and the mated ones affect to look with compassion upon the single unfortunates.

The Methodist Conference.

A large number of Methodist ministers were in the city yesterday, en route to the Methodist Conference, which begins its session at Charlotte to-day. They were while here the guests of various citizens. The entire party, together with the delegates from this city, left for Charlotte last evening. Altogether some seventy-five took the train. Reports of the proceedings of the Conference, which will be particularly interesting, will appear daily in the NEWS.

Operetta at St. Mary's.

The Operetta, "Little Red Riding Hood," composed by Franz Abt, will be given by the young ladies of St. Mary's, on Friday, November 29th, at 8 o'clock. In order to pay the expenses a limited number of tickets will be issued. Admission, with reserved seats, 25 cents. Tickets can be had on and after Wednesday, November 27th, at Pescud & Lee's Drug Store and at the School.

Presbyterian Church Festival.

The ladies of the congregation of the First Presbyterian church have gone vigorously to work to make arrangements for their festival and oyster supper, which they will give on Friday evening. The occasion will be enjoyable and special attention will be given its management. The place selected is the session room, and it will be tastefully arranged and supplied with any quantity of good things, which the attendant fair ones will dispense. The proceeds, which it is hoped may be large, are to be devoted to church purposes.

The Y. M. C. A.

An important meeting of this Association was held last eveuing. The steps preparatory to beginning the winter campaign of benevolence were taken. The following gentlemen were appointed a committee to call on the citizens and solicit funds: Messrs. John T. Pullen, P. C. Enniss and Graham Haywood. These will at once begin their work and will wait on all the citizens, thankfully receiving all contributions, in money or necessaries. Funds may also be handed Mr. W. S. Primrose, the Secretary of the association, at the office of the North Carolina Home Fire Insurance Company. Other committees were also appointed, who will soon make their reports.

New Light Houses on the Sounds of North Carolina.

His Excellency the Governor yesterday received an official communication from Maj. O. E. Babcock, Engineer corps, U. S. A., who is Engineer in charge of the 5th Lighthouse District, headquarters at Baltimore. He states that an appropriation having been made by Congress for the erection of Beacon lights in Currituck and Albemarle Sounds, or their tributaries, an act was passed by the Legislature of North Carolina, ratified January 28th 1874, authorizing the Governor to convey the tittle to and cede jurisdiction over such sites for lighthouses, etc., as might be deemed neccessary. He, therefore, requests the Governor to execute a conveyance of title and cession of jurisdiction. The sites required are as followed: Beacon No. 5, in Currituck county, off Mackey's Island, 1 3-4 miles from Troublesome Point; Beacon No. 6, in the same county, off Mackey's Island, 2 miles from Halfway Point; Beacon No. 7, in same county, near Church's Island; Beacon No. 9, in Camden county, in North river, opposite the mouth of the Albemarle and Chespeake Canal; Beacon No. 10, in Currituck county, in North river, opposite Deep Bend. These sites will all be ceded, as provided for, and the construction of the beacons will begin at once. In view of the increasing importance of these sounds for navigation, the erection of these lighthouses will prove very beneficial.

Federal Court.

This court met yesterday, but was at once adjourned by U. S. Marshal J. B. Hill until to day, Judge Geo. W. Brooks not having arrived. Court will be held in Metropolitan Hall, the elegant quarters which are being prepared for it in the government building, not being quite complete. The jurors have all arrived. A complete list of these has heretofore been published in the NEWS. The docket is not a remarkably heavy one, there being only an average number of cases. The court here has in great measure lost its importance, since the division of the State into two Districts and there are no specially important revenue cases which usually form the larger part of the business. As a rather unusual thing, it may be noticed there are several cases of illicit distillers from Wake county. Probably not one person in a hundred here dreamed of the fact that the ardent is made, in defiance of Uncle Sam's rules and regulations, right here in the metropolitan county of the State.

Thanksgiving Times.

The customary turkey has doubtless ere this been bought and the younger branches of the family now gloat over his comely proportions, while in imagination devouring him. Unless some roguish African shall relieve the coop of its prize, there is hardly a family of any means but will dine on this truly national bird. Number have been on sale in market for some days, commanding good prices.

Some one was speaking of the proper observance of this day, so specially recommended by national and State authority, and wondered whether any attention would be paid to it here. The day, as a rule, has been looked at by the merchants as a bar-keeper looks at Sunday; as a day to keep stores open on the sly, not in a free and easy manner. The towns of the State seem this year to be making special efforts to effect a general closing of the stores and suspension of business. Merchants have signified their intention of doing no business. Those of this city have taken no step in this direction, nor is it known whether they will.

Convicts.

The force of convicts at Penitentiary yesterday received 20 additions, who will have the pleasure of wearing the State livery and having their little names put on some wheelbarrows.

Deputy Sheriff W. E. Parish, of Warren county, contributed a brace of Africans, both guilty of the same old crime, larceny, and sent up for a couple of years each. Their names are Henry Hawkins and Alf. Norman.

Sheriff H. L. Gibbs, of Hyde county, delivered a solitary bird, Riley Williams, who was convicted of the crime of manslaughter and sentenced to dwell within the poles for a space of 10 years.

Sheriff O. J. Neilson, of Polk county delivered two sable convicts, Jeff. Thorne and Tench Doggett, both guilty of manslaughter and under 10 years' sentence.

Sheriff David Loftin, of Davidson, turned over: George Clodfelter, larceny, 8 years; Matilda Dyson, barn burning, 6 years; James Thomas, larceny, 10 years; Jesse Phillips, larceny, 2 years; Lindsey Greene, larceny, 2 years; Henry Greene, larceny, 1 year; Bill Locke, felonious slaying, 8 years. All these were colored.

Deputy Sheriff T. N. Jordan, of Caswell county, contributed three negroes, all guilty of larceny, their names and terms of sentence being: Jerry Willis, 5 years; William Leftwich, 2 years, Alex, Johnson, 2 years.

W. F. Griffith, deputy Sheriff of Mecklenburg county, put seven birds, all black, into their new quarters. Every one of them was found guilty of larceny. They were: Henry McKee, 3 years; Isaac Foreman, 3 years; Daniel Baird, 3 years; Jerry Harris, 1 year; Munro Smith, 3 years; Prince Allen, 3 years; Mack Davis, 1 year. At this rate there will soon be a sufficient number of wearers of variegated garments to throw dirt on fifty new railroads.

The Telegraph Office to be Removed on the 1st December.

The office heretofore used in the Williamson & Upchurch building is advertised for rent in to-day's issue.

A GENTLEMAN who heard the eloquent speech of Col. Fuller in the Criminal court contributes the following original lines:

"I little stealing is a dangerous part,
Stealing largely is a noble art;
'Tis mean to rob a hen roost of a hen,
But stealing millions makes us gentlemen."

Arriving Daily.

Law's splendid stock of Christmas gifts (by far the largest and finest assortment ever in the State) is now coming in! A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are prejudiced to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

The "Old Hickory" brand is a sun cured tobacco such as could be had in ante bellum times. There is none on the market now that will compare with it. *

Boots and Shoes.

Messrs. Cooke & Wainwright have just received a large stock of Boots & Shoes, which they will sell cheap. They also keep the Tennessee wagon. These wagons are made of first-class material, and are guaranteed to be all right and no humbug. They still sell the only genuine Wilson Plows. Cooke & Wainwright. *

Latta and Myatt.

It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been?" Thus it may be with the sufferer who endures the agonies of hemorrhoids, or piles, and heeds not the counsel to try Barham's Infalliable Pile Cure, which is warranted to speedily and permanently cure this distressing disease. Manufactured by the Barham Pile Cure Co., Durham, N. C.

New Jersey Premium Wine.

Physicians state that the Port Wines that took the premium at the Centennial, produced and offered for sale by Mr. Albert Speer, of New Jersey, are wines that can be safely used for medical purposes, being pure and free from medication, and are more reliable than other Port Wines. ALEXANDRIA BREWERY
83 MAIN STREET,
NORFOLK, Va.

I respectfully ask the attention of Dealers and Consumers to our "Tivoli Lager Beer," put up in Patent stopped bottles. Having made a speciality of bottling this Beer, which is brewed by us expressly for export trade, and which received the Prize Medal at the late Richmond, Va., State Fair, "for general excellence" and which has no superior in this or any other market.

I hereby tender my thanks to the citizens' of North Carolina who have so liberally patronized me, and ask for a continuance of their patronage.

FOR RENT OR FOR SALE.

CITY LOTS
AND
County Property to Let for the Year 1879.

On Saturday, the 14th day of December next, I will let at public outcry, at the Court House door in Raleigh, the stores, shops, houses and lots, belonging to Mrs. Mary A. Morehead, in the city of Raleigh, on Fayetteville, Hargett, Wilmington, Salisbury and Blount streets, respectively, and the vacant lots No. 203 and 219 East street, not already leased; also the following tract of land in Wake county: 500 acres adjoining Mrs. Kimbro Jones, P. F. Faison and others, 250 acres known as the Vandergriff land, 221 acres on Rocky Branch, adjoining W. J. Crowder and others, the Emery tract, near Tupper's X Roads the Hartsfield place adjoining Sanders and others. Terms: Bonds and security required, payable in quarterly installments. W. K. DAVIS,
Nov. 18, 3.8. Guardian.

RARE CHANCE FOR INVESTMENT.

Valuable Property in the Heart of the City for Sale,

Will be sold at public auction, on the premises, on Wednesday, the 3d day of December ensuing, the property on which I reside, situated on Wilmington street, within 150 yards of the Market House, containing in all about 3 4 acres of land, and lying beautifully for cotton lots. Besides the improved office lot, it has a frontage on the street of 100 feet, running back 238 feet. It is now the only desirable lot to be had near the centre of the city for compressing cotton which will pay any cotton dealers better than any investment they can make. Both Wilmington and Charlotte have tried them greatly to their advantage. Terms one-third cash, and balance in one and two years, with 8per cent. interest. Apply to Jas. M. Towls, on the premises, or Messrs. Battle & Mordecai, at their office. nov 15-tf

LIFE INSURANCE.

LIBERALITY OF THE ÆTNA!

PLAN PECULIARLY ADOPTED TO THE TIMES.

READ, COMPARE
Consider, Act.

The Renewable Term Policies issued by the Ætna Life Ins. Co., offer to all who desire to Insure their lives at the smallest outlay of money, the most desirable policy now issued by any Company.

1st. The rates are 33 1-3 less than any life participating policy now issued.
2nd. They are non-forfeitable after three years.
3rd. They can be renewed without re-examination, and the experience of the Company thus far is that the next term will cost no more than the 1st did:
